Bug Report

ID number	#2
Name	Add_To_Cart_Zero_Item_Issue
Reporter	Mohammad Fakhraei
Submit Date	08/28/2022
Summary	When I am in a product page and write 0 to the Quantity field, and press add to card, I receive null quantity error.
URL	http://automationpractice.com/index.php?id_product=1&controller=product
Screenshot	Presented in Apendix1
Platform	Windows
Operating System	Win 10
Browser	Chrome 104
Severity	Low
Assigned to	/
Priority	Low

Description
When I try to sign up to create an account in the website, I keep getting error for any valid Zip/Postal code that I enter for a valid respective State.

Steps to reproduce
> Go to a product page (for example
http://automationpractice.com/index.php?id_product=1&controller=product)
> Write 0 on the Quantity field
> Click on Add to cart
> You will get "null quantity" error message. (see the screenshot)

Expected result
The user should receive a proper error message that states the quantity is zero.

Actual result
The user gets a inappropriate error message for the zero quantity.
